

## Halal Compliance Statement

At Solidus, we do not currently offer a Halal certification program for our product assortment, nor do we market our products with this claim. We recognize that determining whether a product is Halal involves numerous factors and requires comprehensive information from our suppliers, which we do not presently possess.

However, based on our current knowledge, we believe it is highly likely that our products comply with Halal requirements. Our processing methods and raw materials do not involve the use of ethanol, animal-derived products, or enzymes.

We are committed to transparency and will continue to evaluate our processes and supply chain to ensure we meet the highest standards of quality and compliance.

*This statement is valid for a period of five (5) years from the date of issue, unless there are significant changes to our products, processes, or supply chain that may affect the potential Halal status of our products. In such cases, we will issue an updated statement.*
