

Statement Allergens

Solidus herewith declares that based on the best of our knowledge and information given by our suppliers;

The regulation (EU) No 1169/2011 of the European parliament and of the Council of 25 October 2011 on the provision of food information to consumers, mentions in Annex 2 the list of 14 substances or products causing allergies or intolerances.

None of these 14 substances are introduced intentionally during our production process.

Starch is a potential source for gluten in the paper and board industry. Coming from recycled fibres and intentionally added during the process. Starch can therefore also be present in our processes and products. The starches at Solidus Solutions originate from non-allergic sources (e.g. potato, corn, etc).

Due to the use of recycled paper as our main product component we cannot guarantee an absolute absence of these 14 listed allergens, background pollution might be possible.
